# Promoting Positive Behaviour

Incorporating the Governing Body's statement of behavioural principles

**Reviewed by the Personal Development, Behaviour and Attitudes Committee**

**On: 4<sup>th</sup> June 2026**

**Reviewed and Ratified by the Full Governing**

**On: 9<sup>th</sup> July 2026**

**Next review date: Summer 2027**

SLT is responsible for oversight of this policy's implementation

## **Mission Statement**

### **MAY WE BE ONE**

In purpose – educating for life in all its fullness

In faith – encountering God who lives among us, calling us to unity

In dignity – nurturing confidence and maturity

In community – striving together for justice, love and peace

Our school, in being one, seeks to ensure that every member plays their full part in building a centre of learning in which the needs and rights of all are respected. Learning good behaviour must be accompanied with a growth in maturity, as we realise the power that we have to build a more united world of the future. The change in the heart of people requires openness to the action of God, who lives among us, nurtures our development, and calls us to put our selfishness aside, so that we might live and learn in a community characterised by justice, love and peace.

St Edward's School seeks to support students in the formation of their character and aims to promote and encourage Christian virtues that will help them to live productive and fulfilling lives. These virtues, together with high expectations and Gospel values help to promote and celebrate positive behaviour in students throughout the school and contribute towards our overall aim of building an outstanding centre of learning. Positive behaviour is a central part of our Christian ethos, as it impacts on daily life for everyone in our school community.

As well as promoting desirable and positive character traits, the behaviour policy also firmly addresses all negative behaviours that compromise learning and safety or which adversely affect any member of our school community. St. Edward's School will not accept defiance from students. We believe that all children are capable of good behaviour and expect the support of parents and carers in ensuring that all children and young people conform to our behaviour expectations, and grow as considerate, respectful, hardworking individuals.

The Governing Body's behaviour principles:

### **We Believe:**

- That our school is a place of education, where teachers have the right to teach, and students have the right to learn. *Education includes learning how to behave properly.*
- That self-discipline is an important skill for life. We will insist on high standards of behaviour, for the good of the individual, and the good of all.
- That school rules are for all students who choose to be educated here. We assume full parental support for all of our policies and rules for as long as they would like their child to remain here; irrespective of their personal views or standards. School staff will not give time to arguing with parents over rules or sanctions.
- That taking pride in our appearance helps positive self-esteem. We will insist that your child looks smart, wearing the correct uniform, and having the expected standards of appearance, at all times.
- That our school is a place of learning in preparation for life. We will take account of individual circumstances, but not allow these to become excuses for poor behaviour, or the disruption of learning of others, for whom we also have a responsibility to provide a great education.
- That everyone has the right to feel safe in school – students *and* staff.
- That education is broader than that covered in classroom lessons - we are a place of formation of the human person, and our provision seeks to support students in behaving well and making the right choices.
- That despite private views regarding particular rules, parents and carers should ensure that their child follows all school rules as learning to comply with contextual expectations is a key component of education for life beyond school.

### Implementing this policy:

The school will make decisions and apply consequences based on all the information available, and on the balance of probability where full clarity regarding an event is not possible.

- In making decisions, the school may have access to, but not be in a position to share a wider range of accounts relating to an issue or incident.
- The school will also consider any protected characteristics in the implementation of this policy recognising that some students may need support where additional needs might affect behaviour.
- Contextual and contributory factors will also be taken into account when determining the school's response to behaviour.
- Whilst every effort will be made to explain decisions to parents, the school will not engage in debate or argument about its course of action. In the interest of fairness and consistency we ask parents to support decisions reached on such occasions. The Governing Body look to parents and carers to support the school when a child's negative behaviour results in a consequence. A minority of parents try to negotiate with the school regarding consequences, or try to state that it should not apply to their child. This does not support the fair and equitable application of our policy, nor is it in the spirit of the Home School Agreement.
- Taking disciplinary action and providing appropriate support are not mutually exclusive actions. They usually occur at the same time if necessary.

### 1. Consequences of Positive Choices

- i. Positive behaviour is encouraged through the promotion and recognition of key virtues. These have been identified through consultation with a range of stake holder groups including students, staff, governors and church representatives.
- ii. The character virtues we particularly encourage at St Edward's are:

| DISCIPLINE   | WISDOM           | COURAGE    | HUMANITY            | SPIRITUALITY |
|--------------|------------------|------------|---------------------|--------------|
| Self-Control | Discernment      | Bravery    | Love                | Reflection   |
| Forgiveness  | Curiosity        | Resilience | Social Intelligence | Creativity   |
| Humility     | Love Of Learning | Honesty    | Humour              | Hope         |
|              |                  | Leadership | Teamwork            | Gratitude    |

- iii. Virtues are recognised under these headings (Discipline, Wisdom, Courage, Humanity and Spirituality) and students, parents and carers, staff and governors will be able to track the number of virtues students recognised within each category or each student.
- iv. The primary positive consequence for students is the formation of character and the development of the qualities that will enable them to live full, positive and productive lives as active citizens within the communities to which they will belong.
- v. The virtues are promoted throughout the school including the themes of the week and in collective worship. Helping students to understand what the virtues are, what they look like in practice and how they can enrich their lives is central to the success of the programme.
- vi. In school, we celebrate the development of these characteristics and share key achievements and milestones with parents and carers. This is achieved through a number of means including; written communication, digital communication, certificates, awards and celebration ceremonies marking the key transition points in a student's journey through the school.

- vii. Students who make particularly significant steps in their development, both in relation to their peers and their relative start point, will be rewarded with additional privileges such as lunchtime passes, opportunities to take part in additional enrichment activities and prizes. Such things are offered as a recognition and celebration of the true reward, which is always the development of character.

## **2. Consequences of Negative Choices**

- i. Students are aware that there can be both positive and negative consequences to different behaviour choices. Students are also aware of the behaviour principles of “Be Ready, Be Respectful and Be Co-operative”. Although staff focus on rewarding active engagement in learning, they will respond to poor behaviour in a relational way that seeks to ensure accountability and understanding. This also reflects our duty to keep all students safe, where their own safety and wellbeing or that of others could be compromised.
- ii. All school consequences apply before and after school whilst a student is in school uniform, on school trips and in the vicinity of the school and in most cases will be escalated a higher level of response for bringing the school into disrepute. The school is allowed in law to implement the full range of consequences for behaviour outside of school, if the circumstances warrant. The full range of consequences for negative behaviour open to the school are shown in Appendix 1, and these are adopted as part of this policy. Consequences may not necessarily be issued in strict sequence, depending on the school’s perception of the seriousness of the issue.
- iii. There are a number of support and interventions used within the school ensuring that a best fit strategy is used to resolve the concerns, issues or behaviours. These include:
  - Catch-Ups
  - Restoratives
  - Community Repair
  - SLT Repair
- iv. Removal from lessons or from the normal curriculum may be used as a response to serious incident. A student may be moved to another class, including that of a different year group, to the Learning Centre or other suitable locations where learning can continue. Suspension or alternative provision may also be used as a result of a serious incident.

Each of these have been designed to address the particular negative behaviour choice that has been made by a student. They will be run at various times of the day, including after school depending on the severity of the behaviour and the availability of staff to run the interventions. Consequences of negative behaviour may be used to deter other students from similar poor behaviour choices in future.

## **3. Responsibilities of Governors**

- i. The Governors responsible for behaviour will liaise regularly with the Headteacher to ensure the effective operation of the Promoting Positive Behaviour policy within statutory guidelines.
- ii. Where appropriate the Governing body will provide guidance on the Promoting Positive Behaviour policy.
- iii. The Governing Body should ensure that appropriate high-quality training on all aspects of behaviour management is provided to support the implementation of the policy.
- iv. The Governing body will regularly review this policy and associated procedures, to ensure its continuing appropriateness and effectiveness.

- v. Support the school in the implementation of this policy.

#### **4. Responsibilities of Staff**

- i. Staff will have high expectations and promote active engagement by students in all lessons, and around the school campus.
- ii. Directors of Learning, Year Leaders and other specialised roles such as the SENCo or LAC Manager, will help to ensure that the application of this policy takes into account students with additional needs.
- iii. All staff act as role models and challenge, and discipline if necessary, those students that do not adhere to the school rules.
- iv. Staff will seek to establish positive working relationships with students.
- v. Staff will confiscate any item that which may cause harm to members of the school community. Items will be stored in a safe location to prevent harm.
- vi. Staff will implement the positive behaviour policy to create a calm, purposeful and safe environment for students.
- vii. Staff will aim to deliver engaging lessons in order to motivate students to love learning, to discourage apathy and reduce the instances of poor behaviour.
- viii. Staff will undertake training as part of their induction and continuing professional development, so that they operate our behaviour processes consistently and professionally, using their professional judgement.

#### **5. Responsibilities of Parents and Carers**

- i. A positive, supportive relationship between school and home is essential to maintain the high behavioural expectations of students. This relationship is set out in the home school agreement and forms the basis of this key partnership. Parents and carers sign a Home-School Agreement when their child starts at St- Edward's, agreeing to work with our school to uphold the policies and procedures that we have. The support of parents and carers is expected.
- ii. Parents and Carers are expected to;
  - Support the school in the full implementation of this policy, including in discussions with their child.
  - Understand that the law is clear about teachers' right to discipline students, and that such authority does not need the consent of a parent or carer, for example, when issuing consequences that take place after school.
  - Reinforce messages encouraging positive behaviour.
  - Set examples of good behaviour including positive interactions with all members of the school community.
  - Recognise and support the principle that education prepares a child for life. In life we sometimes have to obey rules that we might not like or see the purpose of. Not following rules with parental approval has a serious, adverse impact on a child's education because;
    - i) It suggests to a child that in life they do not have to follow rules if they do not agree with them.
    - ii) It distances a child from the expectations followed by their peers.
    - iii) It causes division within the forming conscience of a child as they prepare to be a responsible adult.

- Understand that immediate or same day meetings with staff members may not be possible and an appointment will have to be made to discuss any issues with the most relevant member of staff available.
- Raise any concerns about the management of behaviour with the school directly, while continuing to work in partnership with the school.
- Understand that they freely chose to send their child to St Edward's, and in doing so, they undertake to support the school.

## 6. Responsibilities of Students

- i. All students should be familiar with and adhere to the school's expectations on positive behaviour. They are expected to actively engage in their learning. This is outlined in the students' learning agreement:
  - Invest effort to achieve a high standard of work at all times;
  - Be punctual and fully prepared for every lesson;
  - Wear the correct school uniform, look smart and be proud;
  - Respect the learning environment;
  - Follow instructions given by all staff;
  - Listen to and respect others.

These expectations are summarised in our behaviour principles of "Be Ready, Be Respectful and Be Co-operative".

- ii. Students will respect all members of staff in their behaviour and language. Swearing at, or in response to the directions of members of staff will be taken seriously by the school.
  - iii. Students that fail to adhere to the school rules will be challenged and appropriate consequences will follow.
  - iv. Students must not bring any banned items onto the school site. The banned items include;
    - Knives, sharp implements, guns or any implement that could be deemed by the school to be a weapon or could be used to inflict injury.
    - Any item that has been changed or adapted, intentionally or otherwise, which has the potential to cause harm or injury to another member of the school community.
    - *Illegal* drugs, (including alcohol or cigarettes) solvents or smoking/drug paraphernalia, including cigarette papers, lighters, grinders, vapes etc.
    - Vapes, vaping equipment including vaping liquid.
    - Pornography.
    - Any material that promotes or relates to radicalisation or hate crimes.
    - Stolen property.
    - Aerosols, including anti-perspirants.
    - Fireworks.
    - Any article that a member of staff reasonably suspects may be used or may have been used for criminal purposes.
    - Hidden recording equipment.
- For Year 7 students starting in September 2026, only basic mobile phones may be brought onto the school site. Smartphones are not permitted under any circumstances. A basic mobile phone only and must not have the ability to access the internet, connect to social media, download applications, take photographs, record video, or support games beyond basic built-in functions.

- SMART watches must not be brought on site, and will be treated in the same way as mobile phones. The school does not permit mobile phones to be used on campus by years 7-11. (See St. Edward's mobile phone policy).

Should parents and carers decide that their child may bring a mobile device, appropriate to their specific school year, onto site then all devices must be clearly marked with the student's full name. Phones must be switched off (not just on silent) before arrival on the school site and kept securely in the student's bag. Devices must remain in the school bag throughout the school day and must not be accessed until the student has left the school site at the end of the day.

## **7. Online behaviour**

Online behaviour deemed criminal, or potentially criminal will be reported by the school to the police if it becomes aware of such behaviour during school time. Parents and Carers are responsible for their child's online behaviour outside of the school day, and away from the school's premises. As the bill-payer, parents and carers hold the power over a child's access to their device/s. The school will respond at its discretion if it considers online behaviour to pose a threat or cause harm to another, or have potential repercussions for the orderly running of the school where the student is identifiable as a member of the school, or if the reputation of the school is or may be adversely affected.

The school will not tolerate the creation or distribution of any image, video, audio recording, or digital content that degrades, disrespects, or threatens a member of staff. This includes, but is not limited to:

- Secretly recording staff without permission.
- Creating or editing images or videos to mock, intimidate, or harass a member of staff.
- Uploading or sharing such content on social media, messaging apps, or any online platform.
- Encouraging others to view, share, or create degrading content.

Such conduct undermines the dignity of staff, disrupts the learning environment, and may constitute harassment, bullying, defamation, or safeguarding concern.

## **8. Recording**

Covert recording, either video or audio is forbidden on the school campus at all times. Uploading onto the internet or social media is not acceptable and may result in a criminal offence or being in contempt of court.

## **9. Suspension and Exclusion**

- i. The decision to suspend a student from attending school rests solely with the Headteacher or Deputy Headteacher in their absence, and is based on their judgement of the situation.
- ii. The length of suspension will be determined by the severity and circumstance of the incident, and will be determined by the school. A behavioural incident viewed as very serious by the school will result in suspension.
- iii. A student will also be suspended if, despite all efforts, alternative behaviour strategies have failed to produce resolution and/or reconciliation and/or:
  - They have posed a risk to safety or good order in the school.
  - They continue to pose a threat to the safety or well-being of another student or member of staff.
  - They have seriously disrupted learning.
  - There is a likelihood of continued disruption to learning.

The decision to permanently exclude a student will be taken in response to a serious breach, or persistent breaches, of this policy, and where, in the view of the headteacher, allowing a student to remain in the school would seriously harm the education or welfare of the student or others in the school. Only the Headteacher shall have the discretionary power to permanently exclude any student.

The Headteacher may decide to take this course of action without the student having had any previous suspensions or incidents. The following examples include, but are not restricted to, conduct for which permanent exclusion will be the likely consequence:

- Being in possession of, using or dealing \*drugs whilst on the way to or from school, whilst representing the school or on the school campus.
- Bringing an offensive weapon into school.
- Uses or threatens to use violence or physical aggression against a student or member of staff. This would include the use or threat of use of an offensive weapon or prohibited item.
- Carrying out, or threatening to carry out sexual abuse or sexual assault
- Persistent breaking of school rules
- Refusal to cooperate with staff
- Breaks previous contract of readmittance following suspension
- Malicious allegation(s) against a member of staff or student
- Abuse against sexual orientation, gender identity or disability and other forms of bullying
- Inappropriate use of social media or online technology
- The possession or use of THC containing vapes or any products suspected to contain illegal substances

The school may also report incidents to the police.

- vi. Suspension will require the completion of work commensurate with the learning time missed, equivalent to at least 7 hours per day of suspension, to ensure that learning is not compromised through absence from school. The school will judge whether the standard of work is acceptable, and further discipline measures will be put in place to secure the required standard if necessary. This further serves to underscore the seriousness of suspension as a disciplinary measure.

\*A drug is a substance that affects the way in which the body functions physically, mentally or emotionally. For the purposes of this policy, this definition includes illegal substances and also legal substances such as; Alcohol, Tobacco, volatile substances, over the counter and prescription medicines, and “legal-highs”. The school is likely to permanently exclude for illegal drug-related issues, including the bringing of paraphernalia, into school and vapes containing banned substances.

#### **10. Bullying (Please refer to Anti Bullying Policy)**

- ii. Bullying goes against the principles of the school and our Mission Statement. We regularly review our approach to bullying and make use of high-quality resources developed by partners such as the Anti-Bullying Alliance.
- iii. Of all the types of poor behaviour, bullying is that which gives greatest concern to students. All members of the school - students, teaching and support staff - will be encouraged:
  - Never to accept or ignore any form of bullying which they have noticed;
  - Always to speak out and see that proper action is taken;
  - To listen and to act whenever an alleged case of bullying is brought to their notice.
- iv. Staff report bullying issues via the My Concern safeguarding system.

- v. Students, Parents and Carers are able to speak to any member of staff, or they can report concerns via the online Sharp System which can be accessed via the school's website.

Our safeguarding policy informs our approaches to certain behaviours that may compromise the safety and wellbeing of students, such as child on child abuse. Consequences will reflect the school's view of the seriousness of such behaviours. The school recognises that changes in behaviour may be an indicator that a student is in need of help or protection. We will consider whether a student's behaviour may be linked to them suffering, or being likely to suffer, significant harm. Where this may be the case, we will follow our child protection and safeguarding policy, and consider whether pastoral support, an early help intervention or a referral to children's social care is appropriate.

The school recognises that students' behaviour may be impacted by their experiences, starting point and barriers to learning. When incidents of poor behaviour arise, we will consider them in relation to a their experiences, although we recognise that not every incident of poor behaviour will be connected to their experiences. Decisions on whether a student's past experience, starting point or barrier to learning had an impact on an incident will be made on a case-by-case basis.

#### **11. Malicious or Unsubstantiated Allegations, and deliberate misrepresentation**

- a. Where a student has made an allegation against a member of the school community that is determined to be unfounded or malicious, consequences may apply up to and including permanent exclusion, and prosecution. This is in line with current government recommendations. The decision on how to proceed should be dealt with sensitively and according to circumstances. In order not to deter genuine allegations from being made by students, the student found to have made a malicious accusation should be offered confidentiality and may (according to the circumstances):
  - i. receive counselling to help identify the reasons why they made the allegation
  - ii. be referred to members of the Pastoral Team
  - iii. be referred to Social Care (as stated in DfE Keeping Children Safe in Education)
  - iv. face appropriate consequences including inclusion, suspension or permanent exclusion (amount of staff time spent on investigation may be taken into account when considering severity of consequence)
  - v. face criminal proceedings
- b. Where a student deliberately misrepresents a situation, either in school, or to parents, in the view of the school, a further consequence will be imposed to reflect time wasted for staff investigating, or fielding unnecessary or unwarranted complaints.

#### **12. Use of reasonable force**

Members of staff have the legal power to use reasonable force to prevent students from committing an offence, injuring themselves or others, damaging property or to maintain good order and discipline at the school or among students. Senior staff and authorised staff may also use such force as is reasonable given the circumstances when conducting a search for prohibited items that they reasonably suspect have been, or are likely to be used to commit an offence or cause harm.

The school staff can confiscate, retain or dispose of a student's property on a disciplinary penalty in the same circumstances as other disciplinary penalties. The law protects staff from any liability or

proceedings brought against them for any loss or damage to items they have confiscated, provided they acted lawfully.

### **13. Searches**

Members of staff have the right to conduct searches where there are reasonable grounds to suspect that a student may have a prohibited item. Searches are carried out in line with the DfE Searching, screening and confiscation guidance 2022.

### **14. Monitoring and Evaluation**

- a. Our policy and its implementation will be continually monitored and reviewed, and revised as necessary.
- b. Monitoring will be led by the Headteacher, Deputy and Assistant Headteachers and supported by the Directors of Learning, Year Leaders and Subject Leaders in the following ways:
  - i. Subject Leaders to analyse the events within the department
  - ii. Subject Leaders will support their subject teachers where appropriate
  - iii. Directors of Learning and Year Leaders will have an overview of behaviour within their year groups and work to support Subject Leaders with individual students or classes where appropriate.
  - iv. Assistant Headteachers will meet regularly with Directors of Learning to analyse data and ensure consistency of approach.
- c. The staff, in consultation with the Headteacher, will undertake systematic monitoring and conduct regular reviews of the behaviour management policy and procedures in order to evaluate them to ensure that the operation is effective, fair and consistent. The Headteacher will keep the Governing Body informed via committee meetings.

The Governing body will regularly review this policy and associated procedures, to ensure its continuing appropriateness and effectiveness. The review will take place in consultation with the Headteacher, staff and parents/carers. The outcome of the review will be communicated to all those involved, as appropriate.
